

Fig. 2 is a perspective view of a conical, multi-layered structure. It features a central point from which several layers of material radiate outwards, forming a cone-like shape. The top edge of the structure is labeled 62.

Fig. 3 is a top-down view of a circular structure. It consists of multiple concentric rings. The outermost ring is labeled 60a. Inside this, there is a ring with a cross-hatched pattern, labeled 60c. The central part of the structure is a triangle formed by three lines meeting at a central point. The lines are labeled 62a, 62b, and 62c. The central point is labeled 61. The entire structure is labeled 60b.

Fig. 3 is a perspective view of a multi-layered, dome-shaped structure. The structure features a central dome (70a) with a triangular internal structure (70b) and a base (70c). It is surrounded by a ring of vertical supports (26) and a base plate (40) with a central opening (44). The structure is labeled with various reference numerals: 72, 76, 74, 62, and 26.
